

## **HONORS PHYSICS**

### **H002-001A: Tests**

created: 2009 0911

revised: 2009 0911

## **Frequency**

Tests will occur approximately once every 2.5 to 3 weeks.  
In-class portions will occupy one class period (43 minutes).  
Take-home portions will be available for three (3) calendar days.

## **Resources**

For the in-class portions of tests, you may use

- Scientific calculator
- Electronic translator device (if English is not your first language)
- Handouts I have provided (either physically or online)
- Your notes.

For the in-class portions, you are not allowed to use

- the textbook
- reading articles
- online resources
- other people's notes or work

For take-home portions, you may also use

- The textbook
- reading articles

For take-home portions, you are not allowed to use

- online resources
- outside help (in person, electronic, or otherwise)

## **Format**

The format of tests is somewhat in flux. You should expect

- fact-based (probably multiple choice) questions
- quick calculations
- short essay questions
- in-depth mathematical problems
